### CARNEGIE'S GIFT.

(Associated Press.) London, May 11.—The annual meeting of the Iron and Steel Institute opened here to-day, Andrew Carnegie presiding. Mr. Carnegie, in his farewell speech, said he appreciated the honor of being the first American president of the institute, and introduced his successor, R. A. Haddfield, the vice-president of the institute. Mr. Carnegie announced his subscription of \$25,000 to the research fund as a parting gift to the institute. H. C. Boylton, of Cambridge, Mass., was awarded the Carnegie scholarship of \$500. The meeting will be continued to-morrow. Among the more important papers to be read is one by James Coyler, of New York,

on "The Application of the Dry Air-Blast to the Manufacture of Iron."

### SALT SPRING ISLAND NOTES.

(Special Correspondence of the Times.) S. T. Conery was the victim of an accident which occurred near his farm the other day. His horse, running away, he was thrown from his buggy. Fortunately he was not slightly hurt. H. M. S. Egerton stayed for a few days in Ganong Harbor last week. She left a party of sailors who are surveying. A large number of people are taking advantage of the excellent fishing in the lakes. Some good catches have been made in Cushman and Robertson lakes. Mr. and Mrs. Charles Nobbs have taken up their residence in the Cranberry marsh.

## RUSSIAN SHIPS OFF COAST OF JAPAN

### TWO OF ROJESTVENSKY'S VESSELS SIGHTED

It is Reported in Tokio That They Were in Straits of Tsuuga on Tuesday.

(Associated Press.) Tokio, May 11.—It is reported that two Russian warships from Vladivostok were off Aomori, in the north of Honshu, the main island of Japan, on Tuesday.

### ANOTHER REPORT REGARDING VESSELS.

Tokio, May 11.—It is reported that two of the second Russian Pacific squadron were seen off Aomori, in the Straits of Tsuuga, on Tuesday, May 9th.

### FORMER LIEUTENANT HAS BEEN ARRESTED.

Tokio, May 11.—Ex-Lieut. Iwasaki, formerly connected with the engineering department of the Japanese army, has been arrested in connection with the charges which resulted in the arrest of A. E. Bougain and his stepson, F. Strange, as spies of the Russian government. Iwasaki was dismissed from the navy and deprived of his rank in 1904 for alleged misconduct, and he has since been under police espionage. Bougain has for a long time been held in high esteem by the Japanese, and he has been decorated by the Emperor.

### CORRESPONDENT BUYS COASTING STEAMER.

Shanghai, May 11.—Baron Kriegerstein, correspondent of the Berlin-Lokal Anzeiger, has purchased the coasting steamer Wuchang, which has been renamed the Cecil, and has been placed under French colors. She will be used to report naval events in the eastern waters.

### SAILORS ON RUSSIAN SHIPS ARE LAZY.

Chicago, May 10.—The Daily News-Hongkong correspondent cables that two colliers arrived there to-day from Honkoko-bay, where they delivered 4,000 tons of coal to the Russian fleet. An officer of one of these vessels, the Neumahlen, said to the Daily News correspondent that the Russian vessels are in good trim and likely, if well handled, to give the Japanese more than they bargain for. An officer of the other vessel said:

"The Russians have seven fine battle-ships and a dozen torpedo boats in Honkoko-bay. Their crews, however, are not like sailors. They are lazy and prefer to smoke and drink. They mostly consist of reserves who were forced to leave home against their inclination. They are ignorant and stupid and have no knowledge of their destination or the object of their cruise. It is difficult to conceive how Russia hopes to win with such material."

Nebogoff's squadron has joined Rojstvensky. The officers of these vessels offered \$5 a bottle for whiskey. The sailors begged for whiskey, tobacco and other luxuries. The ships are well armed and cooling at the rate of 250 tons a day. The warships could not swing their guns in order to permit cooling to be done expeditiously. The fleet lies within two miles of the shore in three lines. The torpedo boats are within half a mile of the shore.

### BRITT AND NELSON

Will Fight at San Francisco in July or August.

(Associated Press.)

San Francisco, May 11.—James Britt and "Battling" Nelson have agreed to a match of 20 rounds before the Western Athletic Club, to take place either in July or August, with men to weigh 133 pounds at 6 p.m. on the day of the match. Each man posted \$2,500, and the club put up a like sum. The referee is to be agreed on five days before the fight.

### FELL FOUR HUNDRED FEET.

Man Killed at Cumberland by Falling Down Shaft of Mine.

(Special to the Times.)

Nanaimo, May 11.—Word came from Cumberland this morning that Thomas Neelands, eager at No. 6 mine, was killed yesterday by falling down the shaft. He was working on the upper seam and not knowing the cage was at the surface shoved a box into the open shaft, falling with it to the bottom, four hundred feet below. He was dashed to pieces. He leaves a widow and family of five.

### ACCIDENTS AT NANAIMO.

(Special to the Times.)

Nanaimo, May 11.—Thomas Thompson, a miner, was seriously hurt this morning in No. 1 shaft by a fall of rock. His side was injured, and he has a double dislocation of the ankle and a fractured leg. J. W. Vipond dislocated his ankle in No. 1 shaft last night, his leg being crushed against a prop.

## MORE THAN TWENTY-FIVE ARE DEAD

### AS RESULT OF WRECK OF PASSENGER TRAIN

One Hundred and Twenty-Five of the Injured Received Treatment in Hospital.

(Associated Press.)

Harrisburg, Pa., May 11.—At least five persons were killed and many others injured in a collision on the Pennsylvania railroad, south of Harrisburg, this morning, caused by the second section of the Cleveland and Cincinnati express, westbound, crashing into a wrecked freight train.

The dead who have been identified are: Mrs. Robert Dougherty, 1205 south 28th street, Philadelphia; Harry K. Thomas, of Philadelphia; engineer of the passenger train; Jacob F. Silverman, of Bridgeton, N. J., is also believed to have been killed.

There are at least two bodies under the wreck. Among the injured were Mr. and Mrs. Tindell, the latter a daughter of United States Senator Knox, who were on their way to Pittsburg from New York. They were able to walk to Steelton, from where Mr. Tindell telephoned to the governor, who sent Private Secretary Wharton to bring them to the executive mansion, where they were given medical attendance and clothing.

The Harrisburg hospital is crowded with the most seriously injured. Others of the injured are at the hotels and will be able to resume their journey during the day. The railroad company is doing everything possible for the relief of the injured. Many of them escaped from the wreck in their night clothes, and lost all their clothing and other belongings.

### THE DEATH ROLL.

Harrisburg, Pa., May 11.—At 8 o'clock this morning it was estimated that the dead numbered between 25 and 30. One hundred and twenty-five received treatment for injuries at the Harrisburg hospital, most of whom remained at the institution. Ten of these may die.

Only three dead have been positively identified, so completely were the bodies cremated. At 9:30 o'clock this morning none of the tracks had been cleared, but the wrecking crews, three in number, the two original ones on the scene having been augmented by the Columbia crew, began throwing the debris over the bank into the Susquehanna river. At this time the fire in the last two Pullman cars was extinguished. The contents of these were so completely burned that it was impossible to tell whether there were any bodies there or not. If there were, they were reduced to powder and ashes. It was unofficially estimated that the financial loss will amount to fully \$200,000. This includes \$15,000 for cash, jewellery and other personal effects of the passengers that were destroyed.

### A GRUESOME SIGHT.

Harrisburg, Pa., May 11.—The wreck of the Cleveland and Cincinnati express, west-bound, on the Pennsylvania railroad, which dived into a wrecked east-bound freight train, exploding a car filled with 50,000 pounds of blasting powder, was one of the most horrible disasters ever experienced by the railroad on its main line. Several hours will elapse before the exact number of dead and injured will be known. Twelve of the dead are at the morgue, and other bodies are being brought to the dead house as quickly as they are located.

There are about 70 injured in the Harrisburg hospitals and hotels and private residences, while others are under care of physicians in houses near the scene of the wreck.

The identified dead up to 11 a. m. are: Jack L. Silverman, Philadelphia; Mrs. R. G. Dougherty, Philadelphia; C. Kaulman, Altoona, Pa.; H. J. Luomas, Harrisburg, Pa.; engineer of the passenger train.

The scene the wreck presented when daylight broke was a gruesome one. Splintered and smouldering cars and twisted iron were high on the four tracks, and an enormous amount of wreckage was lying on the marsh land between the railroad embankment and river. One thousand laborers were soon put to work, and by 10 o'clock two freight tracks were opened. Passenger tracks for several hundred feet, were blown away by the explosions.

About eight miles of freight trains are stalled along the main line, east of the scene of the accident. Boatmen are dragging the river for bodies. Passengers and trainmen were burned to a crisp, and others were helplessly pinned to the debris. So completely incinerated were the bodies that only four could be identified up to 11 a. m.

### TWO STUDENTS DROWNED.

(Associated Press.)

Ithaca, N. Y., May 11.—Two Cornell students, G. M. Seymour, of New York city, and Chas. L. Spurr, of North Adams, Mass., were drowned in Cayuga lake last night about six miles from this city. The young men started out in a canoe late in the afternoon. They capsized over a mile from shore with no assistance available.

### EMBARGO ON CATTLE.

President of Board of Agriculture Will Not Remove Restrictions on Canadian Cattle.

(Associated Press.)

London, May 11.—Alwyn E. Fellows, president of the board of agriculture, informed a deputation to-day that "so long as he occupied his office he could hold out no hopes of relieving the present restrictions imposed on the importation of Canadian cattle.

Mr. Fellows admitted that there was no vital disease in Canadian cattle, but he said there always was the prospect of disease. He approved of the restrictions on store cattle in the general interest of the public.

As to the feeling in the House of Commons, Mr. Fellows said, it was very strong against the removal of the embargo.

## WHOLE FAMILIES AMONG VICTIMS

### TOWN IN OKLAHOMA PRACTICALLY WIPED OUT

Conservative Estimate Places the Number Dead at Between Seventy-five and One Hundred.

(Associated Press.)

Guthrie, Okla., May 11.—Snyder, a thriving town of 1,000 people, situated in the heart of the rich Kiowa farming country, which was thrown open to white settlers in 1901, was practically wiped out of existence by a tornado that struck that place last night.

Up to 10 o'clock to-day no clear estimate of the casualties was obtainable owing to the confusion in the stricken town.

A conservative estimate places the dead at between 75 and 100 persons, and the seriously injured at 130. It is believed that a large number of the injured will die.

In a number of cases entire families were killed, and in almost every family in town some member was injured.

Every house in town except six are said to have been either badly wrecked or demolished, many of them being blown entirely away. The havoc wrought is most complete. The business portion is reported entirely destroyed.

The mayors of Guthrie, Oklahoma City, and some other towns have issued calls for mass meetings to aid the injured, and early in the day special trains bearing physicians, nurses and clothing were started for Snyder.

At least one other town in Oklahoma, Quinlan, a small place in Woodward county, was struck by the tornado and Mrs. C. W. Cox and her two sons were killed.

Rumors that other towns were destroyed are not confirmed.

### STATION AGENT'S REPORT.

Guthrie, Okla., May 11.—News has been received from the Frisco station agent at Mountain Park, Kiowa county, a neighboring town of Snyder, to the effect that the town is only partially destroyed but that the list of the dead will total something between three and four hundred. This agent made a personal visit to Snyder, where he observed details of the calamity. Relief trains sent out from Hobart have not as yet reported or returned. It is the intention to send out another train from that place.

Chasha has so far no intelligence of the relief trains sent from that town. Rumors to the effect that other towns in northwestern Oklahoma were destroyed are declared by the telephone exchanges to be incorrect.

Snyder is a town in Kiowa county, Oklahoma, in the Kiowa and Comanche Indian country opened to white settlers in 1901. The town was laid out largely by St. Louis and San Francisco railway at the junction of two of its lines, and the company erected important buildings there.

Snyder is the divisional point for the Quinac division of the road. The town was named for Bryan Snyder, passenger traffic manager of the system.

### NEW YORK TRAGEDY.

Man and Woman Found Dead in a Hotel.

New York, May 8.—A man and woman, as yet unidentified, were discovered shot to death in a room in the Drydock hotel in the Bowery where they had registered this morning as Myron Lewis and wife, city. Shortly afterward the night clerk heard the couple quarreling and heard the woman exclaim: "Oh, Harry, don't be so cruel!"

That was the last heard of the couple until the door of the room was forced to-night, and both were found dead. Cards were found on the man's clothing indicating that they came from San Francisco. The police learned from a habitue of the hotel that the man told him he had lost \$1,700 at the races.

## THE V., V. & E. BILL BEFORE COMMITTEE

### Opposing Interests Are Hard at Work Trying to Prevent the Building of Line to Coast.

(Special to the Times.)

Ottawa, May 11.—The railway committee had under consideration to-day the Vancouver, Victoria & Eastern-railway and Navigation Company bill. Duncan Ross had charge of the bill, which is purely to clear up any defects which may have existed in the past legislation in connection with the charter of the road.

The charter was first granted by the provincial legislature and afterwards by the Dominion government. It was feared that past legislation was defective, and the bill was merely to confirm the legislation already passed.

The introduction of the bill was taken advantage of by the C. P. R. and other interests to prevent the road, which will run from the Boundary district to Vancouver, being built. Already 100 miles of the line has been constructed. The charter passed through the hands of local people in British Columbia to Mackenzie & Mann, and is now owned by J. J. Hill, who has commenced the work of construction. Mr. Hill does not want any subsidy from the Dominion because he will not in any way be restricted and hampered in building it, and therefore can secure a better grade.

An unsigned circular has been circulated and distributed against the V., V. & E. bill. Mr. Ross, in dealing with this circular to-day, charged the C. P. R. and its agents with distributing this unsigned document. He asked Mr. Drinkwater, who was present, if this were not so. Mr. Ross said that as Mr. Drinkwater would not deny it, he would take it for granted that his road was the authority, and therefore he (Ross) would be prepared to deal with it as such. He showed that the character of the legislation was such as the C. P. R. had obtained itself. If good for the C. P. R. it could not be had for the V., V. & E. railway. The circular said that the road crossed the boundary line four times. As a matter of fact the road only crossed the boundary once, at Sidley, so as to secure a low grade. The road could not cross the mountains. From Prince to Penticton the C. P. R. had just to divert its line in the same way to evade the mountains, although not crossing the boundary line.

Mr. Wright (Renfrew)—What harm is done if it does cross the boundary?

Mr. Ross said that he was replying to the circular. The road came back into Canadian territory and made no connection with any road at that point in the United States. He asked what would be thought in the West if an application

was made to close up the Sarnia tunnel to keep out United States connections. Why should Southern British Columbia not have the same results as other parts of the Dominion? He said that not a pound of ore was taken out of the country to the United States. There were mountains of ore in that country but it was low grade and had to be treated in British Columbia. At present ore from the United States was being taken into the smelters at Granby and Greenwood in Canadian territory.

What the opposing interests wanted was to actually compel Mr. Hill building into the Similkameen region through the American territory and prevent a road being built in Canadian territory, as was now asked for. The Great Northern had now a charter into the Similkameen district, but the people of southern British Columbia wanted the road in Canadian territory. That was what the opponents of the bill wanted to prevent. There was a clause in the circular stating that the railway commission could not control the railways. This was not so, but fancy the C. P. R. asking for legislation to reduce rates. The competition of the Great Northern would make the C. P. R. reduce rates.

Mr. Wright—Does the company get any cash or land subsidy?

Mr. Ross—This is the only railway company in British Columbia that ever built a mile of railway without a land or cash subsidy.

In conclusion Mr. Ross made a strong appeal in favor of the bill passing in the interests of the province.

The preamble of the bill was carried by a good majority. The opposition, however, continued to discuss the bill, and at 2 o'clock it was still before the committee.

Mr. Drinkwater, in reply to Mr. Ross, said that the unsigned circular was not prepared by his road but by other interests opposed to the V., V. & E. When the circular was drafted it was shown to him and he recommended some improvements, which were made. He approved of the circular.

Notice of Motion. At the next meeting of the committee R. G. Macpherson will move the following:

"The company shall, within two years from the passing of this act, commence the construction of the western portion of the main line from a point at or near Cloverdale, and continuously prosecute construction in an easterly direction to Princeton along the route as laid down in the original charter of the company, being chapter 75 and 60, Victoria, of the statutes of British Columbia."

### TRIARD CASE ENDED.

J. A. Sayward's Claim For Amount Due For Lumber Was Allowed.

The action of J. A. Sayward to recover the amount of \$1,200 due for lumber supplied the Driard hotel at the time the improvements were made after the fire was completed before Judge Harrison yesterday afternoon.

After the fire at the hotel it seems that Mrs. Joan Dunsuir, the proprietress of the Driard, authorized the expenditure of \$18,000 on the improvements. This was done verbally, and later it was shown that there were written instructions to that effect. The cost of the work exceeded this specified amount to a considerable extent. Mrs. Dunsuir refused to meet the additional expenditure, and C. A. Harrison, who leased the property, looked to the payment coming from that source.

Mr. Sayward, as one of those whose claim was not settled, was not at all particular where the money came from, but he sought to have it collected from some source. Through his solicitor, R. T. Elliott, he sought a mechanic's lien on the property. The case has been threshed out in court for several days past, the plaintiff being represented by Mr. Elliott. Mr. Harrison's case being in the hands of Mr. Dallas Hutchken, K. C., and Mrs. Dunsuir's interests being looked after by Barnard & Rogers.

It was urged that the arrangement for restricting the expenditure to \$18,000 was one between the proprietress and the lease holder, and was not revealed to the various contractors. Judge Harrison allowed the validity of the lien on the property, the establishing Mr. Sayward's claim. The necessary steps towards establishing the details of the amount due will be taken before the registrar of the court.

### WINNIPEG CLEARINGS.

(Associated Press.)

Winnipeg, May 11.—The bank clearings for the week ending to-day were \$3,084,925. For the same week last year the clearings were \$5,420,406, and in 1903, \$4,533,582.

Wood is the material employed in the construction of all buildings in the rural districts of Russia, with the possible exception of the churches. Dwellings of peons and peasants are alike constructed of wood. There are no castles in Russia like those of the old feudal nobles of England or of the continent to connect past and present.

Tumblers resembling in shape and dimensions those employed to-day have been found in great numbers at Pompeii. They are made of gold, silver, glass, marble, agate and of precious stones.

At the next meeting of the committee R. G. Macpherson will move the following:

"The company shall, within two years from the passing of this act, commence the construction of the western portion of the main line from a point at or near Cloverdale, and continuously prosecute construction in an easterly direction to Princeton along the route as laid down in the original charter of the company, being chapter 75 and 60, Victoria, of the statutes of British Columbia."

At the next meeting of the committee R. G. Macpherson will move the following:

"The company shall, within two years from the passing of this act, commence the construction of the western portion of the main line from a point at or near Cloverdale, and continuously prosecute construction in an easterly direction to Princeton along the route as laid down in the original charter of the company, being chapter 75 and 60, Victoria, of the statutes of British Columbia."

At the next meeting of the committee R. G. Macpherson will move the following:

"The company shall, within two years from the passing of this act, commence the construction of the western portion of the main line from a point at or near Cloverdale, and continuously prosecute construction in an easterly direction to Princeton along the route as laid down in the original charter of the company, being chapter 75 and 60, Victoria, of the statutes of British Columbia."

At the next meeting of the committee R. G. Macpherson will move the following:

**TWO DISASTERS IN THE STATES**

**HUNDREDS KILLED AND INJURED IN TORNAO**

Express Train Collided With Cars Loaded With Dynamite—Many Lives Reported Lost.

Fort Worth, Texas, May 11.—Reports over railroad wires to Fort Worth say dispatchers from Snyder, Oklahoma, to the train dispatcher of the "Frisco at Sapula, I. T., report a tornado struck Snyder to-night, wrecking the town and killing 500 people, and relief is asked for. A message to the train dispatcher sent by the Fort Worth Record asking for information is answered as follows: "We have same report and are sending a relief on the supposition that it is true. Wires all down."

Hundreds Perished. Oklahoma City, May 11.—Reports have just reached here from Hobart and Andarko confirming the news of a tornado at Snyder, but no details are known. The "Frisco" railroad is sending a relief train from Chickasa to Snyder. It is rumored that 400 people are killed and injured.

Entire Town Destroyed. Guthrie, Okla., May 11.—Telephone reports from Hobart indicate that the entire town of Snyder, Okla., was destroyed by a tornado. A train of doctors, nurses and other assistants has left Hobart for Snyder. The wires are down between Snyder and neighboring places, and new has to be brought by road to Hobart.

Later reports from Chickasa, I. T., which place is in communication with Hobart, Okla., indicate the truth of the earlier reports concerning the storm. No estimate of the number dead is obtainable.

Perished in Wreck. Harrisburg, Pa., May 11.—An express train on the Pennsylvania railway ran into a freight train in which were two cars loaded with dynamite at 1.10 this morning in South Harrisburg, near the

**Colds**

**CHICAGO LABOR MEN INTERVIEW ROOSEVELT**

President Says "Efforts Made by the Mayor to Preserve Order—Will Have His Support."

Chicago, May 10.—A committee of labor men appointed to call upon President Roosevelt and lodge with him a protest against the employment of federal troops during the present teamsters' strike was granted an audience late to-night. The committee consisted of President Shea, of the International Brotherhood of Teamsters; Charles Dobb, president of the Chicago Federation of Labor; S. Quinn, a member of the Cannvassers' Union, and T. Rickett, president of the Garment Workers' International Union. The members of the committee, President Roosevelt and Secretary Loeb were the only persons at the conference. The following account of what passed in the room was given by Secretary Loeb:

After presenting the protest to the president, Mr. Shea, acting as spokesman, said:

"We are here to present to you a statement, stating our position in the controversy between the employers' association and the teamsters' association. We have understood that they asked your aid in bringing troops to Chicago. We want to present our petition to you. It will take about ten minutes; perhaps we had better leave it with you."

The President said he would read it at once, and after doing so said:

"I have read the petition you have presented to me, the conclusion of which is a request for a hearing before any action be taken by the federal government relating to the Chicago Strike situation. As yet no suggestion of any kind has come to me from any source that I should take any action. Of the merits of the case I am wholly ignorant. I have no knowledge of what the situation is or of what steps should properly be taken to end it. I feel, however, that in view of one statement or series of statements in your letter, I ought to say this: I regret that you should in the letter have spoken at all of the use of the federal army as you have spoken. No request has been made to me for action by the federal government, but at the same time, Mr. Shea, as you have in this communication brought up that fact, I want to say one thing with all the emphasis in my power: In upholding law and order, in doing what he was able to do to suppress mob violence in any shape or way, the mayor of Chicago has my hearty support. I am glad to be able to say this to you, gentlemen, before I say it to another body. Now let me repeat that I know nothing of the facts of the situation. I know nothing of the right or wrong of the points at issue. What I have to say is based partly upon the phrase of a letter presented to the President of the United States. I have not been called upon to interfere in any way, but you must not misunderstand my attitude. In every effort of Mayor Dume to prevent violence by mobs or individuals, to see the laws obeyed, and that order is preserved, he has the hearty support of the President of the United States, and in my judgment he should have that of every good citizen of the United States. Now, gentlemen, it has been a great pleasure to see you, and I want to have the chance to say this to you."

Mr. Quinn, who knew the President in his youth, said:

"Mr. President, what prompted us to come up with this statement is that for the last three weeks there has been a continuous howl about the federal army. I have known you long enough to know that you would not respond to a one-sided demand, and that you will not respond until you have thoroughly investigated the case."

The President replied:

"Mr. Quinn, as yet the mayor of Chicago has not made any appeal to the governor, and therefore, of course the governor has made none to me. And, as yet, nothing in the situation has demanded action by me."

It was generally understood by both sides to the strike that there would be no disturbances while President Roosevelt was in the city. There were, however, several outbreaks, one of them occurring in Michigan avenue, a short time after President Roosevelt had passed the spot. In this riot a number of men were killed and shot. During the Merchants' Club luncheon to-day, Mayor Dume told the President that the most alarming stage of the strike had passed, and that the police had control of the situation.

George S. Pearce, a union teamster, was shot and killed to-night by George T. Waldron, a deputy sheriff, who was guarding a Wells Fargo Express Co. wagon. Waldron was arrested. Eight hundred pupils of the Hendricks public school went on strike to-day because a colored teamster for the Peabody Coal Co. delivered a load of coal at the building. Police sent to the school are alleged to have used clubs on more than one pupil. The crowd quickly scattered. In a riot this afternoon at No. 35 Twenty-Second street, Edward Wright, a strike sympathizer, was shot in the groin by a non-union teamster, who was driving a United States Express wagon.

**JAPAN'S PROTEST.**  
French Orders to Observe Neutrality Have Not Been Sufficiently Executed.

Paris, May 10.—6.05 p.m.—In the course of an apparently authoritative statement published here to-day of the Japanese case against France, a summary is given of various acts of assistance rendered to the vessels of the Russian second Pacific squadron at Cherbourg, Dakar, Algiers, Jibuti, Maguna, Nosibe, Kamranh bay, Port Dayot and Hon Koko bay. The conclusions of the Japanese government are stated to be as follows:

1—Without questioning the good faith of France, Japan holds that the French orders to observe neutrality have not been sufficiently executed.

2—France should have taken sufficient measures beforehand to prevent violations of neutrality, instead of securing the observance of neutrality after Japan's remonstrance.

3—In default of sufficient surveillance, Vice-Admiral Rojdestvensky has been greatly facilitated in the accomplishment of his mission and in gaining access to Chinese waters. Consequently it was for the ends of warfare that Vice-Admiral Rojdestvensky utilized on successive occasions French waters both for anchoring and re-visitations and awaiting the arrival of reinforcements.

The foregoing is said to be substantially Japan's position both as to the past and as to the basis of any future claims arising from the alleged breaches of neutrality.

The proprietor of the shoe factory who has been imprisoned in his factory at Limoges, France, with his family, including four children, for several days by strikers, was released on Wednesday by a large force of gendarmes, who arrested a number of the strikers. The strikers had placed beams across the doors and permitted only small supplies of rations to be passed into the building.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, May 11—5 a. m.—During the night a general rainfall occurred from this to California and light showers on the Lower Mainland. It is still raining from the Columbia river to Northern California. The weather has turned comparatively cool with a heavy fall of rain turning to sleet and snow from Medicine Hat to Winnipeg.

Forecasts.

For 36 hours ending 5 p. m. Friday, Victoria and vicinity—Southerly and westerly winds, partly cloudy, with occasional showers.

Lower Mainland—Light to moderate winds, mostly cloudy, with occasional showers.

Reports.

Victoria—Barometer, 30.06; temperature, 45; minimum, 43; wind, 4 miles N. W.; rain, .10; weather, cloudy.

New Westminster—Barometer, 30.04; temperature, 44; minimum, 41; wind, calm; rain, .02; weather, cloudy.

Nanaimo—Wind, 5 miles N. W.; weather, fair.

Kanapipit—Barometer, 29.92; temperature, 40; minimum, 40; wind, calm; weather, clear.

Barkerville—Barometer, 29.94; temperature, 30; minimum, 28; wind, calm; weather, clear.

San Francisco—Barometer, 30.06; temperature, 59; minimum, 48; wind, 6 miles S. W.; weather, clear.

### Bad Fitting Shoes Changed 25 cents

New shoes often mean needless foot torture. FOOT ELM makes new shoes comfortable and absolutely prevents chafing or blistering. Rests and cures the feet. Simply great for chilblains. Try it once. At all drugists, 25 cents per box. Also direct postpaid.

**STOTT & JURY, BOWMANVILLE ONT.**

### RUSH OF IMMIGRANTS

Hundreds of New Settlers Arrive at Winnipeg Daily.

Winnipeg, May 10.—Theodore M. Knappen, secretary of the Western Canadian Emigration Association, returned yesterday from an extended trip through the West. Mr. Knappen went out to Regina and Saskatoon. The influx of new settlers he declared to be most notable. Five hundred cars of settlers' effects have been unloaded between Regina and Prince Albert this spring, and at every station similar sights are seen. From Prince Albert to Winnipeg the traveller is now never out of sight of a new house, and this in a country where two years ago there was not a building. During the present summer Mr. Knappen expects that 40,000 homesteads will be taken, and within two years' time he declares there will not be a homestead left within reaching distance of a line of railway.

The immigration special, which was expected early this morning, did not arrive till nearly three in the afternoon, the weight of the train having delayed it considerably. The regular arrived on time, though it was also a very heavy train, there being six cars of colonists, numbering about 250 persons, on board. The extra brought 500 more and there are other specials en route.

### BRIEF TELEGRAMS.

Among the passengers who arrived at New York on Wednesday from Liverpool were Sir Thomas G. Shaughnessy, president of the Canadian Pacific railway, and Sir Charles Rivers-Wilson, president of the Grand Trunk railway, and Lady Wilson.

United States Secretary Taft fairly took the breath of the 500 railway men, members of the international congress dining at Washington, D. C., Wednesday night as the guests of the American Railway Association, when he emphatically declared that railway rate legislation must come, so that if the railway men of the country were wise they would aid and not hinder it; that the sentiment of the country is such that failure of proper regulation would warrant a campaign on the subject that would do no good to the railways.

## Ayer's Cherry Pectoral.

The best medicine ever made for the coughs and colds of children. Always keep it in the house. Prevents croup. Stops night coughs. Ask your doctor.

## AN INSPECTION OF PUBLIC SCHOOLS

### MUST BE MADE AS SOON AS POSSIBLE

### Was the Discussion of the Trustee Board at Lengthy Meeting Held Last Night.

Probably the most important decision reached at last night's meeting of the school trustees was that with respect to an immediate and more thorough and frequent medical inspection of the city schools. Dr. Hall took his seat at the board for the first time and was appointed to succeed Dr. Bolton on the building and grounds committee. He was a silent listener of the proceedings until the question of health came up, when he expressed his views in no uncertain manner on a subject which he considered was of great concern to all.

In opening the business of the meeting Secretary Eaton read a letter from Madison Wright, asking for the use of the Old Fellows' hall, Spring Ridge, for religious service. The writer desired the building for a month.

Trustee Lewis questioned the advisability of establishing a precedent in such a case.

Trustee Mowat suggested that a deposit of \$15 be made to cover possible damage, and that the janitor be remunerated for any special services rendered.

Trustee Jay moved that the request be not granted, and after further discussion the motion carried.

A. R. Sheik forwarded a resolution passed by the Municipal Association, Spring Ridge, complaining of the lack of school accommodation in that district and asking if there was not a spare room in the High school. Laid on the table.

The principal of North Ward school complained of the roof of Miss Murton's room being in bad shape. The plaster recently fell and some boy had a narrow escape from being hurt. The writer also drew attention to the need of more soil and flower pots. Referred to the building and grounds committee.

Two letters from Senator Templeman were next read, which are self-explanatory. They are as follows:

Robt. Mowat, Ottawa, May 7th, 1905.

Dear Sir:—I am in receipt of yours of the 27th ult. respecting the rifles used by the High school cadet corps, which it is proposed to have shortened. If Colonel Holmes makes the recommendation as you suggest, I would suppose that the department would act upon it, and certainly it would receive my co-operation.

I will speak to the minister of militia in reference thereto.

Yours very truly,

W. TEMPLEMAN.

Ottawa, May 11th, 1905.

Mr. Robt. Mowat, Victoria:

My Dear Sir:—Replying to your letter respecting rifles for the cadet corps, I beg to say that I am advised by the militia department that 100 shortened Sniders have been transferred to Victoria for the use of the cadet corps there.

If the officer in charge of the cadet corps makes requisition upon the D. O. C. for the rifles I have no doubt he will receive them.

Yours very truly,

W. TEMPLEMAN.

In view of the trouble which he must have taken, Trustee Mowat moved that a vote of thanks be sent to Senator Templeman. This carried unanimously.

A communication from Mrs. Russell of the Spring Ridge school, drew attention to the bad ventilation in the room occupied by division 4.

Referred to the building and grounds committee, with power to act.

The finance committee enclosed accounts aggregating \$688.72. Approved.

Trustee Lewis, as chairman of the building and grounds committee, reported recommending an appropriation of \$600 for the grading and draining of the High and Central school grounds, and that the work be done by day labor under the direction of Mr. Mantou.

Trustee Mowat thought the appropriation, in view of the limited fund at the disposal of the board, was too large.

Trustee Lewis said that the grading of the grounds and fixing of the sidewalk was imperative.

Trustee Jay considered that the grounds were a disgrace. If something was not done the permanent sidewalk work done would be like so much thrown away. The playground was in a state of mud during the wet weather.

The report carried.

The building and grounds committee recommended that tenders be called for the sewerage of the Kingston street school. The report was laid on the table.

The report of the medical committee on the inspection of schools reported that they had had a conference with the health officer and had received the following letter from that officer:

Victoria, May 10th, 1905.

Public School Board of Trustees, Victoria: Gentlemen—A committee from your board of trustees called upon me yesterday to discuss the question of the monthly medical examination of the public schools of the city.

It was pointed out to the committee that

such a procedure would have a deterrent effect upon the general public, as parents would be careful not to send their children to school while suffering from any contagious or infectious ailment; and besides the public might feel safe in allowing their children to attend the schools where a regular medical inspection was carried out.

The inspection would include a personal examination of each and every pupil in attendance, together with a general survey of the sanitary conditions of the premises.

The ten schools (Kingston street, South Park, High school, Central, Royal, Central, Spring Ridge, Hillside, North Ward, Rock Bay, Victoria West) represent about 2,500 students.

In reply to the committee I offered to undertake the work at a monthly remuneration of \$50.

HERMAN M. ROBERTSON.

Trustee Boggs remarked that in the report of the Vancouver schools he noticed that out of 3,300 pupils in attendance 670 were found to have defective eyesight.

Trustee Lewis said the committee made no recommendation but left the matter to the board to decide.

Trustee Jay remarked that as this was a matter that was covered by the by-law it might be well to refer the question to the city council. If the by-law did not now fully meet the case then it could be altered to do so.

Trustee Mrs. Jenkins endorsed the suggestion.

Trustee Mowat thought that pending the arranging of the matter along the lines proposed, something might now be done.

Trustee Mrs. Jenkins also thought an immediate inspection of the schools was necessary.

Trustee Hall said the report opened a very broad subject. Vancouver was very fortunate in this respect. She had a qualified man as health officer who did all the work of inspection, having a salary in accordance with his duties. He had no fault to find with the present incumbent in Victoria. He was as good a man as could be found for the position. In universities of Scotland special courses were now given men who were to fill such positions, and it was time that Victoria was doing something to recognize the advances made along the line of sanitation. The salary now paid, namely, \$50 a month, was altogether too small for complete examinations, although it might be reasonable enough for a routine inspection for contagious diseases. But the schools were now looked upon as great disseminators of disease, and he fully endorsed the action of the board. There should, however, be an examination for sight and breathing.

In the schools to-day a large amount of that put down for mere stupidity was due to nothing more than bad eyesight, and he would favor the board requesting Dr. Robertson to give his rates for eye examinations in this respect. No pupil should be allowed to attend until he or she was capable of seeing the blackboard. In cases of contagion a monthly inspection was not frequent enough. It should be made weekly. He noticed that Dr. Robertson was going to give a lecture before the Teachers' Institute. He would like to see every teacher attend that lecture, as doubtless instruction would be given which would assist them in detecting cases of contagion in their initial stages. It would be well, too, that each teacher should have a colored card as a guide in the diagnosing of eye troubles. He believed these charts might be obtained from Chicago.

Trustee Huggett said all would agree with the wisdom of Dr. Hall's remarks. The board now saw what it meant to be tied down to the necessity of finance. The board could not afford to carry out Dr. Hall's suggestions. He moved therefore that the matter be immediately laid before the city council, and that if the by-law dealing with this matter is not sufficient now that the council be requested to have it extended to meet all requirements, and also that Dr. Robertson be appointed health inspector for the schools.

Trustee Lewis thought it desirable that the attention of the board of health should be called to the matter.

Trustee Mowat did not want to see any delay consequent on the passing of correspondence over the inspection of schools.

Trustee Hall moved in amendment: Resolved, That inasmuch as there is a necessity for a more thorough medical inspection of the public schools, that the school board request the board of health to appoint Dr. Robertson to the position with an increase of salary commensurate with his increased responsibility, his duties to commence as soon as possible.

The amendment carried unanimously.

Trustee Lewis moved that a committee, composed of Trustees Hall, Jay, Mowat and Mrs. Jenkins, present the motion to the board of health.

This motion also carried.

Trustee Mowat moved that the board will apply to the department of education for leave to close the schools on the afternoon of the 24th and 25th.

Trustee Jay moved an amendment that holidays be asked for all of Thursday and Friday.

Trustee Mrs. Jenkins seconded the amendment, but Trustee Mowat protested against this proposal. The amendment was lost and the motion carried.

The letter of Mr. Sheik was then taken from the table. Trustee Lewis wanted to know how many rooms were vacant in the High school.

The secretary said one, but this will be used next term.

Trustee Lewis—How many applications have been refused for children to attend school?

Secretary Eaton—There have been several, but I could not give you how many off hand.

Trustee Lewis—Are there not a suf-

cient number of pupils in the High school district to warrant the board engaging a teacher and opening a new class?

Secretary Eaton thought it a matter of good policy to leave things as they are until next term.

Trustee Lewis believed something should now be done to prepare for increased attendance next term.

Trustee Huggett then moved the following motions, which were carried:

That this board views with favor the establishment of evening classes, in order that facilities be given to those young people who have been compelled to leave school at a comparatively early age and who desire to further education. Resolved, therefore, that a committee be appointed to consider the advisability of establishing an evening school and to report to this board not later than the regular meeting in August.

That the city superintendent, in conjunction with the principal and staff of the High school, be instructed to prepare for publication a calendar to include a syllabus following the parallel courses of study to be provided by the regulations now in course of preparation by the department of education, and with the understanding that the calendar provide optional courses.

Trustee Mowat gave notice of a motion to amend the by-law that no more primary classes be started after Easter.

Trustee Hall, in referring to the question of corporal punishment, registered a protest against the practice of boxing the ears, which often inflicted serious injury.

After some further discussion the meeting adjourned.

## FALL WHEAT.

### The Crop Outlook in Alberta—Thousands of Acres Were Sown.

Raymond, May 10.—A trip through the fall wheat belt, which means, in local parlance, that territory served by St. Mary's railroad, just now gives to the contentions of many here that this crop, and this only, is the logical crop for southern Alberta. It is certainly an inspiring sight to see thousands of acres sown last fall now presenting the appearance of rich meadows, wheat being five, and in many instances seven, inches high, and in every case strong and healthy. The lawyer in the fall wheat movement, E. E. Thompson, of Spring Coulee, has in this year 6,000 acres, all in turkey red, a variety which he introduced into this section. The prediction was made last year that this fall would see a million bushels of wheat threshed in the district of which Raymond is the centre, and now this prediction does not seem in any way extravagant.

The C. P. R. is making great progress on the irrigation canal, says a Calgary dispatch. Steam shovels are moving earth at the rate of ten tons per minute to the cars, which carry it away along a temporary railway to where it is used for filling.

riots, in the loss of many lives, the wounding of a considerable number of people, the destruction of some property, and in more or less injury to the cause of the strikers.

AUTOMOBILES AND THE SPEED LIMIT.

Now that the automobile has appeared "in our midst" in considerable numbers and apparently has made up its mind to stay until the flying machine or some further improved form of motion takes its place, it behooves the authorities to take measures to check the impetuosity of some of the chauffeurs.

The newest car man, with the frenzy of speed upon him, care not at all for the safety of his fellows. We are not sure but he believes for the time being that he is the sole possessor of the earth; perhaps he dreams that he is the lord of the vast domain and that the highways have been specially constructed for his order.

The evil under consideration is not as yet a serious one in Victoria. Our streets are not under the feet of swarms of human beings, nor are the wagnons of speed proportionately numerous.

Service will be held in St. Stephen's church, and the interment will take place in the cemetery adjoining. Flowers left at Hayward's undertaking parlors not later than 10.45 o'clock will be taken out from the city.

A CROWD ARRIVED  
ON R.M.S. MANUKA

DOWIEITES WHO ARE BOUND FOR ZION CITY  
The First White Child Born at Fanning Island—Passengers Bound for England—The Yukon.

The arrival of the Canadian Australian liner Manuka from the Antipodes yesterday afternoon made an impressive sight. The ship was crowded with passengers; she carried 375 in all. To those who have watched the growth of the business on the line it looked as though the travel to which this route is entitled in consequence of its many advantages both in respect to distance and weather conditions had at last set in. The major number of those aboard were bound for Europe. But one interesting party, comprising 81 people, were heading for Zion. They are Dowieites, headed by Deacon Carey, until recently manager of a bank near Melbourne. He has with him his family and servants. He is the son of a Methodist clergyman, but he now denounces the Methodist faith as being closely allied with Freemasonry. He is going to Zion for the reason that the "only way the Restoration work can be carried to every place on the earth is by getting communities together and building up cities where everything evil to man is destroyed and men and women are taught to live right and do right."

Some doubt was expressed among those on the Manuka whether all the members of the party would be able to reach their destination. The immigration laws on the American side are very strict, and it is possible that a number may be debarred from making a landing on account of blindness or lameness.

Among the arrivals on the Manuka were Rev. Dr. Fitchett, LL. D., editor of the Australian magazine Life, and an author of wide reputation in the colonies, and Rev. John Dukes, of New Zealand. Both are en route to England to attend the Wesleyan conference there. G. H. Brown, of this city, who has been to Honolulu; G. P. Davis, wife and two children, also from the Hawaiian capital, were other arrivals. Mr. Davis brought with him a large tourist automobile, which was landed here. He reports that Ben. Williams, formerly of Victoria, is now manager of a large plantation at Lona.

The Manuka had 51 Australians in her steerage who have come to settle in Canada. The ship had a rough passage. She left Sydney, on April 17th; Brisbane, two days later; Suva, on the 24th; Fanning Island, on the 30th, and Honolulu, May 3rd. Fifty tons of cargo was landed at Fanning Island. While the ship lay off shore Suva, a number of the cable station, rowed out in a small boat, accompanied by his wife and infant child. The baby was shown the passengers as the first white child born on the island. Advantage was taken of the occasion to christen the child, as there were a number of ministers aboard, and after the interesting ceremony a collection was taken up. A large sum was raised, and it was decided by the passengers to purchase a silver mug on arrival and send it to the baby in commemoration of the event.

The Manuka brought as cargo for Victoria: Two hundred cases apples, 10 cases pineapples, 3 crates fruit. For Vancouver: Two thousand three hundred and sixty-seven crates oranges, 559 cases apples, 10 cases oranges, 1,800 pieces sawn timber, 439 ingots tin, 175 cases fruit, 25 cases jam, 20 cases puddings, 20 cases meats, 10 cases hams, 5 cases cream, 11 cases milk, 4 cases diving gear, 1,035 bales flax, 2 bales leather, 100 barrels cocconut oil, 12 cases pelts, 62 bales wool, 61 bales skins, 37 bales shearings, and sundries.

Australian papers received on the Manuka tell of the work being done by General Booth, of the Salvation Army, who is now in that country and who will start for home in July. In speaking at Melbourne General Booth is quoted as saying: "Last year we sent about 1,000 people to Canada, and only four turned out badly. We are now making negotiations with the government there to receive suitable emigrants, and already there are applications for carpenters, fitters and other skilled tradesmen. The Canadian government reckons that every man who goes there is worth \$100." When asked whether he contemplated sending any of his emigrants to Australia, he replied: "No, because you don't want them here. My idea is not as some people imagine, to pick up a fellow and send him away just to get him out of England. My idea is that the Salvation Army will yet have ships on every sea, carrying men and women to new countries, where there are larger opportunities for them, and supplying wives and husbands, children for adoption—and even journalists."

THE YUKON.  
According to advices received by the White Pass & Yukon route offices, Vancouver, on Friday last the water in the Fifty-Mile river, a White Horse was four inches below the level at which it is possible to operate steamers.

THE GENERAL CONDITIONS on the Yukon now point to a general break-up about a week earlier than was the case last year, but the water this season will open for navigation at a very low stage. On Friday the water in the Fifty-Mile river was open as far down as the head of Lake La Barge. The ice on the lake is reported to be still solid, and teams are hauling scows and freight on the lake. The Yukon river is open below Hootalinqua as far as the eye can see, and is also open for a short distance at the following points: Tamin, Selkirk and Selwyn.

MARINE NOTES.  
Referring to the departure of the Manuka from Australia, and the demand there had been for passenger accommodation, the Sydney Morning Telegraph said: "So great has been the pressure, that the company was unable to accommodate all who were desirous of obtaining berthing space on the liner. The development of the All-Road route is becoming very marked, and this is no doubt due in a measure to the attractiveness of the ports of call in the Pacific, and the beauties of the route across Canada."

Good business continues nightly at the Grand theatre. Manager Jamieson's offering for the week being a pleasurable one. The headliners are the three Olivers, novelty tightrope artists, who have a most sensational act, and the other items are Veronique and Houston, song and dance soubrettes, "The Minstrel Man"; Frederick Roberts in the illustrated song "When the Harvest Moon is Shining on the River," and an extremely interesting line of moving pictures, illustrating scenes in Samoa and the Fiji Islands.

In the provincial police court yesterday afternoon Mr. Hackett, a representative of the Gorham Rubber Company of Seattle, was tried for alleged

A CROWD ARRIVED  
ON R.M.S. MANUKA

DOWIEITES WHO ARE BOUND FOR ZION CITY

The First White Child Born at Fanning Island—Passengers Bound for England—The Yukon.

The arrival of the Canadian Australian liner Manuka from the Antipodes yesterday afternoon made an impressive sight. The ship was crowded with passengers; she carried 375 in all. To those who have watched the growth of the business on the line it looked as though the travel to which this route is entitled in consequence of its many advantages both in respect to distance and weather conditions had at last set in. The major number of those aboard were bound for Europe. But one interesting party, comprising 81 people, were heading for Zion. They are Dowieites, headed by Deacon Carey, until recently manager of a bank near Melbourne. He has with him his family and servants. He is the son of a Methodist clergyman, but he now denounces the Methodist faith as being closely allied with Freemasonry. He is going to Zion for the reason that the "only way the Restoration work can be carried to every place on the earth is by getting communities together and building up cities where everything evil to man is destroyed and men and women are taught to live right and do right."

Some doubt was expressed among those on the Manuka whether all the members of the party would be able to reach their destination. The immigration laws on the American side are very strict, and it is possible that a number may be debarred from making a landing on account of blindness or lameness.

Among the arrivals on the Manuka were Rev. Dr. Fitchett, LL. D., editor of the Australian magazine Life, and an author of wide reputation in the colonies, and Rev. John Dukes, of New Zealand. Both are en route to England to attend the Wesleyan conference there. G. H. Brown, of this city, who has been to Honolulu; G. P. Davis, wife and two children, also from the Hawaiian capital, were other arrivals. Mr. Davis brought with him a large tourist automobile, which was landed here. He reports that Ben. Williams, formerly of Victoria, is now manager of a large plantation at Lona.

The Manuka had 51 Australians in her steerage who have come to settle in Canada. The ship had a rough passage. She left Sydney, on April 17th; Brisbane, two days later; Suva, on the 24th; Fanning Island, on the 30th, and Honolulu, May 3rd. Fifty tons of cargo was landed at Fanning Island. While the ship lay off shore Suva, a number of the cable station, rowed out in a small boat, accompanied by his wife and infant child. The baby was shown the passengers as the first white child born on the island. Advantage was taken of the occasion to christen the child, as there were a number of ministers aboard, and after the interesting ceremony a collection was taken up. A large sum was raised, and it was decided by the passengers to purchase a silver mug on arrival and send it to the baby in commemoration of the event.

The Manuka brought as cargo for Victoria: Two hundred cases apples, 10 cases pineapples, 3 crates fruit. For Vancouver: Two thousand three hundred and sixty-seven crates oranges, 559 cases apples, 10 cases oranges, 1,800 pieces sawn timber, 439 ingots tin, 175 cases fruit, 25 cases jam, 20 cases puddings, 20 cases meats, 10 cases hams, 5 cases cream, 11 cases milk, 4 cases diving gear, 1,035 bales flax, 2 bales leather, 100 barrels cocconut oil, 12 cases pelts, 62 bales wool, 61 bales skins, 37 bales shearings, and sundries.

Australian papers received on the Manuka tell of the work being done by General Booth, of the Salvation Army, who is now in that country and who will start for home in July. In speaking at Melbourne General Booth is quoted as saying: "Last year we sent about 1,000 people to Canada, and only four turned out badly. We are now making negotiations with the government there to receive suitable emigrants, and already there are applications for carpenters, fitters and other skilled tradesmen. The Canadian government reckons that every man who goes there is worth \$100." When asked whether he contemplated sending any of his emigrants to Australia, he replied: "No, because you don't want them here. My idea is not as some people imagine, to pick up a fellow and send him away just to get him out of England. My idea is that the Salvation Army will yet have ships on every sea, carrying men and women to new countries, where there are larger opportunities for them, and supplying wives and husbands, children for adoption—and even journalists."

VICTORIA TOOK THE SECOND GAME

DEFEATED EVERETT BALL PLAYERS YESTERDAY

Score Was Thirteen to Twelve Opening Match in City League Lacrosse Series.

The judgment of W. H. Lucas and other baseball magnates when they argued that professional ball would rouse Victorians to enthusiasm was endorsed yesterday afternoon. Cheers and hilarious shouts rang out from the Oak Bay grand stand as run after run was down to the credit of the local team and batter after batter took his place, knocked a safe hit, and reached first in perfect safety. At the finish the score stood 13 to 12 in Victoria's favor. This alone, however, does not give a correct idea of the character of the game. It was a peculiar contest, very much in favor of the home team during the first seven innings, and exactly the reverse in the last two. There was quite a crowd in attendance, although it did not equal that of the previous day. An explanation of the excessively large batting list and error column is found in the fact that a cold wind blew across the diamond, tumbling the fingers of the players and causing fumbles and overthrows. But taken all through the fielding was not too bad, in fact that of the Islanders was extremely good, the infield being fast and the out much improved.

Umpire Shock started proceedings by announcing several changes in the personnel of the respective teams. He stated that E. Ford had taken the place of Geo. Burnes in centre field, that Philbrick would look after the third base, and Howlett do the twirling. For Everett, Doyle was to take the place of Yeazell, and Steele that of Pringle as catcher. A pre-emptory "play ball" brought the preliminaries to a close and Victoria took the field and Everett to bat. Howlett, one of the most experienced pitchers in the northwest, was in the box. "Doesn't he take it coolly," remarked one of an admiring throng of small boys in a back seat. And he certainly started in with the confident air of one who knows his business. He hadn't thrown many balls before winning popularity with the fans. His ball isn't particularly deceptive or, at least, it doesn't appear to be so from a front seat in the grand stand. But somehow the opposing batters couldn't find it when a hit was necessary. Time after time they searched in vain for that slow drop and only made a hole in the atmosphere. Without a doubt Howlett is an "A" pitcher, having speed, control, and what is more to the point, splendid judgment and a slow, deliberate delivery. Some may say "but he allowed ten runs in during the two last innings." True, he did, but allowance should be made for his condition. Only a week ago Howlett was ill and confined to the house, so that the pitching in a nasty cold wind completely tired him by the seventh. Then had the score been any less than it was, 12 to 2 in Victoria's favor, he would have called in relief. But the margin was so great he determined to carry it through. The result was Everett hit freely and scored ten runs—within one of the local team's total.

Everett was kept guessing up to the third inning, when two or three hits were secured and a couple of runs scored. "The balloon's up," shouted a white uniformed player from the visitors' bench as the second man crossed the plate. "Oh, we didn't want to win in the first inning this time." These side remarks roused the ire of spectators and when Everett was retired shortly after the Victorians were accorded quite an ovation. The enthusiasm increased when the home nine started in on a batting streak that lasted for the remainder of the match. One after the other went to the plate and handed the safe hits and two of the runners found their way around the diamond. One of the latter was Hitchison, the busy first baseman, whose sprinting efforts—very creditable for one beset by nature with over 200

The sweetest and daintiest and purest confection is COWAN'S MILK CHOCOLATE

The Cowan Co., Ltd., TORONTO.

caused much amusement and appreciative applause. Victoria's batting was much better than in the opening match, proving that no nine should be judged by their showing in the opening contest. The question is asked, "Is the local team's splendid hitting on this occasion due to poor pitching or their hitting ability?" This is a difficult query to answer. Possibly it is to be attributed to both causes. Certain it is that Doyle, the Everett twirler lost his head for several innings, while it is equally true that the home batsmen found his benders without difficulty. But still another factor must be considered—the unreliability of Steele, who took Pringle's place as catcher for the visitors. It is not often one playing that position has not enough "head" to keep the plate covered when there is a runner on third base. Steele, however, forgot all about Hutchison being on the third base in one instance, and walked out to confer with the pitcher. This left Hutchison completely unguarded, and he walked in and score had not Earle been sufficiently alive to come in from third, thus preventing any result from a very careless piece of work.

While, however, the battery was ineffective the Everett infield did really excellent work, although there were one or two overthrows to the initial bag. Hulen, manager and captain of the team, was playing that position and handled himself in superb style. The outfield, generally speaking, was first class. But it was the fast work of Victoria's infield that elicited the admiring comments of the crowd. The combination operated throughout like a charm, the first baseman, Hitchison, second baseman, Ford, and third baseman Downing, playing together very prettily. From present indications Ford will prove the pet of local fans. His sprinting is a pleasure to witness. But for one excusable fumble yesterday his work was perfect. He covers more ground than is absolutely necessary, being almost as often on first as on his own base, and what is more, handling everything that comes his way thoroughly. At third base Philbrick acquitted himself creditably. And McManus, who came over from the Sound last season and immediately won his way into the hearts of Victoria fans, "what is he doing?" There isn't a curve in the repertoire of any of Howlett's pitchers that the ever-popular McManus can't hold. He doesn't miss anything and his really laughable way he frightens base runners out of attempting "steals" by nabbing one or two at the second bag.

During the progress of the game Doyle, Everett's twirler, gave an exhibition of the famous "split" ball, a curve recently introduced by an eastern pitcher and found to be deadly in its effect. It's a comparatively slow ball, which appears to gather impetus just as the batter prepares to strike, and then takes a sudden drop. Fortunately Doyle proved to be far from expert in delivering this, and the home batters were not very much puzzled. The incident, however, is interesting because it was the first curve of its kind thrown on the local diamond. Umpire Shock didn't give the same satisfaction yesterday as on the opening game. Both Hutchison and Howlett protested strongly, and, to all appearances, justly, against some of his decisions. It must be acknowledged, however, that he is in a better position to judge than anyone in the grand stand, and, furthermore, that his rulings are always rendered quickly and impartially.

Summary—Earned runs, Everett, 6; Victoria, 8. Two base hits, Hulen, E. Ford. Three base hits, Sullivan, Daley, Howlett. Sacrifice hits, Jacob, Sullivan, E. Ford. Hit bats on ball, by Howlett; 2 by Doyle, 1 by Struck out, by Doyle, 4; by Howlett, 5. Hit by pitched ball, Mackie, Daley. Left on base, Everett, 6; Victoria, 12. Wild pitch, Doyle. Passed balls, Steele, 2. Umpire, Shock. Time of game, 2 hours.

Notes
George Burnes, who played centre field for Victoria yesterday, has been released. The Victoria team left for Vancouver last evening and is playing the Terminal City nine this afternoon, Galaski doing the twirling. Matches also will be played on Friday and Saturday. It is expected that Holness and Philbrick will occupy the pitcher's box on these two occasions. McManus will be behind the bat in all the Vancouver games. The team then will leave for Everett, playing there on Sunday and returning here on Monday. On Tuesday, Wednesday and Thursday matches will be played with Vancouver on local grounds, and on Friday and Saturday the home nine

will try conclusions with Bellingham, also at Oak Bay. There is just a possibility that Garvan, one of the best of Victoria's pitching staff, will have to report to the manager of the San Francisco team, now at Seattle, for service. It seems that before coming to Victoria Garvan thought of taking a place on the 'Frisco nine, and, with that end in view, communicated with the management. His terms, however, were not accepted and Garvan refused to go on for any less. Some weeks after he came to Victoria and was signed by Manager Howlett. Since then Garvan has received a telegram from the 'Frisco manager asking him to report for duty immediately. He will stay with Victoria, however, preferring to play with the local nine than to be subjected to the mental and physical strain necessary to hold a place in one of the big city leagues.

Appended is the present standing of the Northwestern League:
W. L. P. C.
Bellingham 2 0 1,000
Victoria 1 1 500
Everett 1 1 500
Vancouver 0 2 000

ANOTHER WIN. Bellingham, May 10.—The second of the opening series between the Vancouver and local clubs resulted in another win for the latter by a score of 16 to 7 runs. As may be seen by the score, the Bellingham team outclassed the visitors.

THE SCHOOL LEAGUE. Yesterday afternoon a meeting of members of the management committee of the school league was held at the offices of Superintendent Eaton, city hall, when entries were received from the North Ward, Central and South Park teams. It was decided that each game should consist of seven innings and be played on Saturday mornings, commencing at 10 o'clock promptly. W. W. Winsby will umpire the first contest. The appended schedule was drafted:

May 12th—Centrals vs. North Ward.
May 20th—South Park vs. Centrals.
May 27th—North Ward vs. South Park.
May 3rd—Centrals vs. North Ward.
June 10th—South Park vs. Centrals.
June 17th—North Ward vs. South Park.
After the consideration of other details the meeting adjourned.

LACROSSE VICTORY FOR CENTRALS

Last evening before a fair-sized crowd of enthusiasts, the Victoria West boys were defeated in the first game of the city league series. Both teams took the field confident, but from the start to the finish it was quite evident that the Victoria West boys were outclassed at all points, the running, passing, shooting and catching of the Central team being of the highest order and in marked contrast to the lack of condition and team play of their opponents. The official score of three to one hardly gives a fair idea of the relative merits of the two teams, as, with one or two exceptions, the Central goal was never actually in danger. The Victoria West team played strong individually, but home and defence were poorly balanced, and they were unable to keep up the pace set by their lighter opponents. The Centrals scored one goal in the first quarter from a pretty piece of combination play, starting with Sargison and ending with the ball being placed in the net.

In the second quarter the Victoria Wests made one or two efforts to score, but the Central defence succeeded in carrying the ball up the field to the front of their opponents' goal. Here Stevens and Jacobson by quick work relieved time and again, and a swift underhand shot resulted in another tally for the Centrals. In the third quarter two of the Victoria West boys were sent to the fence for unbecoming conduct, and the Central team, fast and furious, the Centrals playing beautiful combination up and down the line, and another close underhand shot resulted in the score being made three to one. Another point was scored in this quarter, but the whistle having sounded, it was disallowed. In the last quarter the checking became a little rough, but the referee, J. G. Brown, kept the boys well in hand and warned offenders on either side if they were promptly sent to the fence if they did not play clean lacrosse. During this quarter the Victoria West succeeded in scoring their first and only goal, and the final score remained 3 to 1 in favor of the Centrals, who deserved their victory from all points of play.

It is hard to participate where all played so well, and it would be impossible to point to a weak man on the Central team. From the goal-keeper to inside home every one played good clean lacrosse and used their heads at all times. The Victoria West boys will have to drill very hard if they expect to carry any honors of this year. While strong individually, they are completely lacking in team play. As regards the spectators, it would be well if the executive would bear in mind that they are in a great measure responsible for the popularity of the game and should take such steps as would prevent excited spectators from crowding in the field whenever a little trouble is created by some over-zealous player. J. G. Brown made an impartial referee, and if that official is strict and backed up by the executive there would be nothing but good clean lacrosse played in this city.

NOTES. The lacrosse season cannot be said to have opened under auspicious circumstances. Last evening's game was not the clean, snappy exhibition of the Canadian national pastime that most of those who occupied positions in the grand stand expected to see. It was marred by a rough-and-tumble fight which started through an altercation between Sargison, Central's centre man, and Baker, of the Victoria West twelve. An excited throng then crowded about the belligerents, some taking one side and others the opposite. It was with difficulty that order was restored. Rough checking continued from this on. Another objectionable feature was the remarks continually made by a number of spectators encouraging the players to play roughly. All that can be said is that if the same thing continues throughout the series lacrosse will receive a fatal blow as far as Victoria is concerned.

In the perfect combination of the Centrals last evening was apparent the result of the previous practice. Though much lighter than their opponents, the Victoria West was completely outclassed and bewildered by the pace set. Of the Centrals, Sargison at centre was particularly noticeable, though all played their positions creditably. The new man, C. S. Mason, proved a decided acquisition, being fast, reliable and using his head

cooly and with excellent judgment. Crocker, Baker, Patrail, Stevens and one or two others played a hard game for the losing team. But they didn't work together, and, although first-class individually, were unable to cope with the superior combination against them. THE NEW PLAYERS. Some days ago Hendron, formerly of the Winnipeg twelve, arrived in the city to take a place on the senior Victoria team. Negotiations are still in progress with other Manitoba experts, while, according to present information, a number of the best Nanaimo players have decided to try and prove their ability to hold a place on the first local twelve.

ceeding, interesting evening is expected by officials of the different associations. THE OAR. VICTORIA DAY RACES. According to a dispatch from Berkeley, California, two crews from the University of California have decided to compete in the regatta to be held here on Victoria Day over the harbor course. There will be two first and freshmen crews, and both are reported to be in splendid trim. Washington and Stanford are expected to enter against the J. B. A. A. and other Canadian crews, so that an interesting race may be looked for. After the competitors here the crews will meet on Lake Washington in a triangular race between representatives of California, Washington and Stanford. The California crews follow: Seniors—E. A. Bannister, captain; G. C. Jones, M. Evans, E. V. Dodge and E. J. Loeb. Freshmen—H. J. Shaferle, captain; C. L. Stokes, W. K. Zeller, M. H. Wilbur and E. J. Loeb.

GRAND FORKS.

An unknown lunatic was Saturday seen in the timber up the north fork, just opposite the Seattle mine...

One of the largest real estate deals ever closed in the Boundary country was completed, when N. McLennan and E. Miller acquired the well known Johnson ranch...

VANCOUVER.

In the case of Choo Lee, charged with extortion, heard before Mr. Justice Yuff at the assizes on Tuesday, the jury returned a verdict of not guilty.

A resolution was passed at the meeting of the fire and police committee on Tuesday afternoon that a small committee be appointed to act as a sub-committee and make a report on the best system of street lighting...

The annual inspection of the Christ Church Boys' Brigade, which was held on Tuesday evening on Melville street on Tuesday evening, passed off as nicely as could be desired.

"I am a murderer, I want to give myself up," were the startling words that fell from the lips of a pale and trembling man who staggered into the police station about 11.30 on Tuesday night.

At yesterday afternoon's meeting Rev. Dr. Fraser, of Vancouver, read an excellent paper, in which he deplored the small percentage of church-going people in Canada. He referred to the fact that in Canada and the United States there was so many workmen who did not attend church.

Rev. J. H. Henderson and Rev. A. Grant continued to the discussion after which Vincent Harper, of Victoria, was introduced to the meeting. In addressing the assembly he took upon himself to urge the ministers to study and preach economics.

This brought Dr. Campbell to his feet, who declared in plain English that what he had said from his pulpit had no reference to Socialism, which he was not discussing, but to an attack which had been made on the ministers of the Gospel...

The building for the housing New City Park on Gorge road. Good acreage property along Burnside Road and also along Gorge Bridge, excellent for fruit growing.

GOLDS.

Their Proper Treatment and Cure.

BY DR. VALENTINE.

COMMONLY, the first symptom of a "cold" is a chilly feeling, accompanied by sneezing, or a tickling in the throat. The most frequent cause of external colds are draughts, wet or cold feet, or going from hot rooms suddenly into cold ones.

"I will be glad to let every one know what year medicines have done for me," writes Mrs. Wm. Wise, of Fishburn, N. W. Ty. "We came to Alberta, some two years ago, and I was a total wreck."

No one ever takes cold unless over-fatigued, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve forces.

Notice is hereby given, pursuant to the provisions of Section 99 of the Municipal Classes Act, that the Council of the Corporation of the City of Victoria has, by resolutions passed at a meeting of the said Council held on the 28th day of May, 1905, declared that a certain wooden building situated and being upon part of Lot 270, Block 22, at the corner of Quadra street and Baine street, in the City of Victoria...

THE THEOLOGICAL CONFERENCE ENDS

REV. DR. MILLIGAN'S CLOSING ADDRESSES

Vincent Harper, the Novelist, Introduced to Presbyterian Clergymen Yesterday Afternoon.

The theological conference of Presbyterian ministers, which has been sitting all week, closed last night with an address in St. Andrew's church. Rev. J. A. Logan, of Edmore, moderator of the synod, presided. After devotional exercises at the opening, the choir of the church contributed to the programme, and following this the address of Rev. Dr. Milligan was given.

The address was given by Rev. Dr. Milligan. He spoke on the subject "Wants That Are Wants." The address was pre-eminently one of instruction. Like all the speeches of Dr. Milligan there was nothing dry about it. The subject was "Wants That Are Wants." The address was pre-eminently one of instruction. Like all the speeches of Dr. Milligan there was nothing dry about it.

He referred to the tendency in youth to care only for those things which could be seen, and too often this same tendency followed persons throughout life.

The things that are unseen seem very important and marvellous. This was one of the reasons why our lives were so fruitless. This was why he wanted to refer to wants that were wants. The number of real wants were not great in number, but they were great in results.

The first want was a purpose in life. The lad who did not know what he intended to do was to be pitied. The boy with an ambition was to be honored. It was a good thing when a boy was found with an inclination and then have a good follow that inclination. It was a good thing for a man to have a strong trend in a certain direction. A man should be trained in all directions, however.

The purpose of setting tasks for a boy in school. This volition powers needed training. It was wise to adhere to a set plan even to reading for the evening. The great object of education was to train a man in purpose. Illustrating this he told about a young fellow who was always very popular with the girls. He would go anywhere whenever he was asked, but he had no purpose.

He doubted if any of these girls would have married this young fellow, Jim, for Jim was a chip on the ocean which went out and in with the tides, and not a ship which remained at anchor and went out only when ready. Men were here to be disciplined like the soldier.

Incidentally he said that a man might be known by his leanings. A man who trusted no man should be regarded with suspicion. The boys were never spoiled by over much authority. Russia might run to the one extreme, but in this country the opposite extreme was indulged in. In doing the simple things expected of their children should be made to feel that they had done their duty.

Only by discipline did people become great. As illustrating this he referred to the determined characteristics of the Dutch. The yoke must be borne sometime, and the plastic time of youth was the best time.

Another want which was a want was a want of energy. He could not understand how so many people were played out when they got about fifty years of age. The earth was the Lord's and the fulness thereof. The nerves and constitution were given to take care of. People had a lot to learn. A great many did not know how to breathe. They went from the cradle to the grave without knowing how to breathe in and with a bad breath all the way. Men were asked to present his body a living sacrifice, not half dead and half alive.

A want of thought was another want. People were inconsiderate. Rest when you need it. Avoid mental fatigue. Be of a contented mind. A man was entitled to all the privileges and duties of the state. If it was straining even if it was the depriving of the right to be a school trustee for the clergy. It made

"Queen's Head" Galvanized Iron. Is made for service, and gives faithful service. 40 years test proves it lasts longest.

## STEAMER PILBARRA REPORTED SAFE

WAS PICKED UP BY THE LINER INDUNA

Anxiety Felt for Missionaries in German New Guinea—Message to King Edward.

The A. U. S. N. Company's steamer Pilbarr, which left Noumea on March 22nd in continuation of her voyage from Sydney for Suva, and which was so long overdue that great anxiety had been felt for the safety of those on board, is safe. News to this effect was received through the arrival of the R. M. S. Manuka yesterday. When the previous ship of the line left Sydney it was feared that the Pilbarr had been lost. A French warship and several steamers from different ports were sent in search, and even the Moana, on her last trip from Victoria, received instructions to Suva to shape a northwesterly course in the hopes of sighting the missing steamer. The Moana called at Anenitum (New Hebrides) on March 22nd, and learned that a French warship had called there on the 20th, also searching for the missing steamer, but it fell to the steamer Induna to find the Pilbarr.

It appears that the Pilbarr met with an accident the second day out from port. At that time she was about 140 miles to the eastward of the Island of Tanna, in the New Hebrides Group, and a hurried examination made by the engineering staff disclosed the fact that the blades of her propeller had been stripped.

Capt. Fleetwood, the master of the Pilbarr, immediately took steps to place the disabled vessel under sail, and within a very short space of time he had succeeded in securing a certain amount of control over the steamer. On the following day Capt. Fleetwood, who was aware that the steamer Tamba was timed to leave Port Vila, in the New Hebrides, on the 6th or 7th of March, sent a boat in charge of the second officer, Mr. Sewell, to intercept her and seek for assistance. The boat, which was manned by four seamen, arrived from Victoria, and obtained in readiness for launching a "drift" net. The Pilbarr continued to drift nearer and nearer to the land, and as the position of the vessel was serious the boats were launched at 6 o'clock that evening, but only one of them—that containing the women and children and a few male passengers, 10 in all—was dispatched. This boat was manned by three seamen, in charge of the chief officer, who was instructed by Capt. Fleetwood to make for Erromanga. There were altogether 23 people in the boat, and by the captain's orders blue lights were burnt at intervals to indicate to those on board that the boat was safe.

The party landed safely at Dillon's bay, on the west side of the Island of Erromanga—the station of Rev. H. A. Robertson, of the Presbyterian mission. Mr. Robertson treated the castaways with great hospitality, and made them extremely comfortable during their stay of several days. On the 13th of March the steamer Induna arrived, and took the party on board. The same evening the Induna left in search of the Pilbarr, which had been sighted from the island on the morning of the 8th of March about five miles to the westward. She was successful in her mission.

News of a threatened uprising of the natives at Berlin Hafen, in German New Guinea, comes from the south on the Manuka. It appears from what can be gleaned that some weeks ago the natives commenced to arm themselves with weapons of various kinds, and in other ways prepared for warfare. Their avowed intention was to swoop down on the Roman Catholic missionaries stationed at Berlin Hafen, for the purpose of making certain demands. Many of the natives are in possession of firearms, and all of them are provided with tomahawks, in addition to native clubs and spears.

Fearing that as a result of the rising a series of murders might be committed at the mission station, word was sent at the earliest opportunity to Herberhsobe, in the island of New Britain, the seat of government in the German Archipelago. The position was at once recognized by the authorities as a very serious one, for not many months ago 10 missionaries were massacred at New Britain, and news of that affray had reached the natives of New Guinea.

Dr. Hahl, the governor of the German island possessions, at once organized an expedition to quell the disturbance, and ordered that the government steam yacht Seestern should be immediately prepared for sea. This was the position of affairs when the Prinz Sigismund arrived at Herberhsobe on the 21st of March. The Seestern, with the governor on board, sailed out of Herberhsobe for Berlin Hafen while the Prinz Sigismund was in port there, and was not expected to return for several days.

Inquiries instituted by the officers of the Prinz Sigismund at Herberhsobe as to the cause of the uprising elicited the information that the missionaries recently placed three of the children of one of the native families in the Roman Catholic school at Berlin Hafen to be trained. The parents, it is said, objected to the course adopted, and the tribes thereupon demanded that the children should be returned. Upon the request being refused the natives at once prepared for action.

Shortly before the Manuka left Aus-

## Lumbago, Sciatica, Gout, Neuralgia

ALL CAUSED BY RHEUMATIC POISON IN THE BLOOD—CURE GUARANTEED—RELIEF SWIFT AND SURE FROM DR. HAMILTON'S PILLS  
There is a new life ahead for every sufferer from rheumatic poison who has not yet used Dr. Hamilton's Pills; their prompt cures are the marvel of the medical profession of many nations. The unspeakable anguish of rheumatic torture need no longer be suffered—use Dr. Hamilton's Pills and permanent cure is assured. In so many thousands of cases have Dr. Hamilton's Pills been successful, the manufacturers are willing to guarantee a last-thing cure to all that use them. No one can doubt the efficacy of Dr. Hamilton's Pills after reading the experience of Miss Minnie Saunders, of Halifax, who says:  
"Scores of different remedies failed to relieve me. I suffered incessantly from neuralgia and sciatica. Sometimes the pain was unbearable.  
"A friend recommended Dr. Hamilton's Pills. In a few days I was relieved. I continued the treatment, using in all five boxes, and was cured.  
"I have not felt the slightest pain or ache since taking Dr. Hamilton's Pills, and consider my cure absolutely perfect."  
Why delay any longer? Get Dr. Hamilton's Pills at once. They will restore your health in a short time. Price 25c. per box, or five boxes for \$1. at all dealers, or by mail from S. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

TRAIA King George II., of Tonga, arrived at Auckland on an official trip in connection with trouble which had arisen on the island growing out of the action of the high commissioner in deposing the King to agree to certain changes in his ministry, under the threat of annexing Tonga to Great Britain. His Majesty stated that a lengthy communication to the home authorities has been prepared, setting forth the particulars of the trouble, and asking for redress at the hands of the Imperial government. This has been prepared in triplicate, one copy being sent to the secretary of state for the colonies, another to the British consul at Tonga, and the third direct to His Majesty King Edward VII., accompanied by a covering letter in the handwriting of King George. It gives particulars in detail of the whole trouble, and concludes with a series of questions from the King of Tonga, who asks if he and his council are free without interference from Great Britain, but subject only to the constitution and laws of Tonga, to appoint and remove his own ministers and his cabinet, and to do the same with his country's officials; also whether Great Britain threatened his country with annexation if they exercised any of the powers mentioned without the prior consent of the high commissioner or the British agent in Tonga; and, finally, were the treaties of 1879 and 1900, as amended by the treaty of 1901, still binding between the two countries?

News comes from Newcastle of a fresh outbreak of plague at that point.

## POLICE COURT NEWS.

Boys Convicted of Using Obscene Language Allowed to Go on Suspended Sentence.

In the city police court to-day six boys living in James Bay were convicted of using obscene language. They were reprimanded by the police magistrate and allowed to go on suspended sentence.

The case is one following complaints which have been made concerning boys congregating in a vacant lot and making themselves obnoxious to the residents and passers-by. The police being notified of this condition of affairs took steps to abate the trouble, and accordingly Police Officer Palmer some evenings ago, being detailed for the duty, succeeded, while concealed in the bushes, in getting evidence against six boys which was considered sufficient to convict them of the offence complained of. Evidence was produced by Miss Agnes Deans Cameron, A. H. McNeill and parents of the boys to prove that they bore good reputations and had been gentlemanly and respectful at all times. Two of the boys pleaded guilty, the remaining four maintaining innocence of the charge.

They were convicted, but allowed to go on suspended sentence. Three Indians and a white man were convicted of being drunk and disorderly and fined.

Last night at the Crystal theatre the audience was more than pleased with the show. Miss Lyman sang a beautiful illustrated song. Next came Leo and Munroe, comedians and dancers. Mr. Leo is one of the best clog dancers that has ever appeared in Victoria, and Master Munroe is certainly a wonder for his age. J. Beart is recognized by the press and public as one of the greatest black-face comedians on the stage. He recently came from the Eastern circuit. The Parrotts, expert jugglers, gave a wonderful exhibition. Mrs. Parrott is one of the best jugglers of her sex. Mr. Alexander again performed some clever feats in releasing himself from regulation handcuffs and other difficult restrictions.

"NOT IF IT COSTS TEN DOLLARS A bottle would I be without Polson's Nerviline," writes J. A. Ruth, a farmer living near Trenton, Ont. "Nerviline is the best household remedy I know. We use it for stomach troubles, indigestion, headache and summer complaint. I know of nothing better to take in hot water to break up a cold, or to rub on for rheumatism or neuralgia." Every farmer should keep a few bottles of Nerviline handy, and have smaller doctor bills. Large bottles 25c. at druggists.

A lawsuit between the families of the Count de Torres-Galveco and the Marquis Stana, which has occupied successive courts for 288 years, will, it has been officially announced, be finally decided by the Madrid court of cassation in January, 1907.

There are now over 2,000 Roman Catholic churches and chapels in England and Scotland. Thirty-two Roman Catholic peers have votes in the House of Lords and 72 members of the Lower House are of the same faith.

Scientists estimate that there is energy enough in fifty acres of sunshine to run the machinery of the world, could it be concentrated.

BORN. NELSON—In Victoria, on May 11th, the wife of John Nelson, of a son.

DIED. CAMP—At the family residence, Prairie Hotel, South Saanich, on the 10th inst., John Camp, a native of Chesterfield, Derbyshire, England, aged 82 years.

The funeral will take place from the residence as above on Friday, May 12th, at 2 p. m., and at St. Stephen's church, South Saanich, at 2:30 o'clock, the interment taking place in St. Stephen's cemetery, South Saanich.

Friends please accept this intimation.

## SELF CURE NO FICTION! MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR.

but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily and economically cure himself without the knowledge of a second party. By the introduction of THE NEW FRENCH REMEDY THERAPION.

A complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1—A Sovereign remedy for discharges from the urinary organs, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—A Sovereign remedy for primary and secondary skin eruptions, eruptions, pains and swellings of the joints, and all those complaints which mercury and sarsaparilla are popularly but erroneously supposed to cure. This preparation purifies the whole system through the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3—A Sovereign remedy for debility, nervousness, impaired vitality, sleeplessness, distaste and incapacity for business or pleasure, pains of the head, and all those disorders resulting from early excess and excess which the faculty is permanently impaired, because so innocent to cure or even relieve.

THERAPION is sold by principal Chemists throughout the world. In British Columbia and B. C. in ordering, state which of the three numbers is required, and observe that the word THERAPION appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Secretary of State, and without which it is a forgery.
